Work Experience

Security GRC Analyst	**Blameless Inc. (San Francisco, USA)**	**05/2022 – 01/2023**
Full-story "end-to-end" enterprise incident management web application and integrations.		*https://blameless.com*

- Led the evidence collection and audit presentation for internal audit and technical systems controls for the AICPA SOC2 Type 1 audit (which was received as a clean report with no exceptions).
- Integrated MFA via SSO into existing & new Security/GRC tooling via integration with Google's custom SAML apps interface.
- As lead and an SME for security alerting, wrote, responded, and documented handling procedures for Google Admin, Microsoft Admin, and SentinelOne EDR alerts regarding spam, account takeover, malware, and device/data tampering.
- As owner and SME for corporate device management, automated, tested, and troubleshoot multiple bash scripts, policies, and configurations in JAMF, to ensure that devices would maintain compliant with industry standards.
- As owner and SME for Customer Trust, built workflows across multiple GRC toolsets to give Sales the direct ability to present a standard experience of our company's security and compliance readiness and answered additional questions.
- Co-wrote a playbook and template responses for privacy (GDPR and CPRA) Data Subject Access Requests (DSARs).

GRC Analyst	**Kong Inc. (San Francisco, USA)**	**08/2021 – 05/2022**
The most popular open-source API gateway solutions for microservices, self-hosted or in cloud.		*https://konghq.com*

- Assisted with evidence collection and co-presented technical systems controls for the AICPA SOC2 Type 2 audit (which was received as a clean report with no exceptions).
- Automate, test, and trained compliance questionnaires & documentation using industry workflow software and procedures.
- Contributed to compliance & business efforts from research on recent industry regulations, governmental policies, and laws.
- Evaluated between and implement competing choices for technical controls to meet security and compliance posture goals.

Cyber Security Analyst	**PerimeterX, Inc. (San Mateo, USA)**	**11/2019 – 08/2021**
Worldwide leader in behavioural bot management protection for e-Commerce apps.		*https://perimeterx.com*

- Lead and mentor to customers and multiple internal departments, alike. Evolved an onboarding program for the WFH era.
- Specialties in technical integrations, data logging solutions, high-value item AIO software research, JavaScript supply-chain risk, and information processing and asset (cookie, scripts, etc.) identification questionnaires.
- Automated alerting patterns and data query through parameterisation and scripting in YAML, SQL, JS, and Python.
- Identified multiple specific key patterns in anomalous network & client-side data points from Petabyte-scale data, then synthesised these into backend detection models to prevent and terminate account takeover, fraud, and card theft.
